Pankaj Global Public School has consistently strived for academic excellence by providing students with opportunities beyond textbooks.

To nurture 21st-century skills, the school has introduced **AI classes** and organized **Robotics exhibitions**, giving students hands-on exposure to technology and innovation. Alongside academics, we have strengthened **sports facilities** and celebrated student achievements at various levels.

To build a strong foundation in the early years, we conduct **Phonics and Abacus classes**, enhancing reading, communication, and mental calculation skills. The school also actively prepares students for **national-level competitions**, encouraging them to showcase their talent on bigger platforms.

These initiatives reflect our commitment to holistic development — blending academics, technology, sports, and life skills to shape confident, capable, and future-ready learners.
